

RAY OWEN PLATING
ELECTRO PLATERS AND METAL FINISHERS

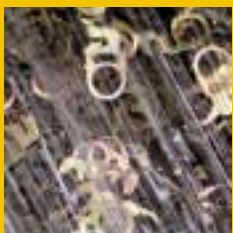

**MORE NEW
EQUIPMENT!**

- Installation of our new, fully automated rack zinc plating line is complete and gives us one of the most advanced facilities in the UK

Exciting new features include

- Plating area of 3 metres x 2 metres
- More efficient throughput
- Additional pre-treatment to give improved finish
- State of the art drying station
- Fully prepared to adopt Chrome VI free passivates to meet our customers' requirements
- Multi-functional programming to achieve a variety of specifications

Established in 1987, Ray Owen Plating Ltd has grown to one of the leading zinc plating facilities in the Midlands. Operating from our new purpose-designed factory in Telford, the basis of our success has been a commitment to provide unrivalled standards of quality and service which are unique in our industry.

Ongoing investment has given us the largest processing line in the Midlands – and one of the most advanced in the UK – to handle even the highest volumes with those same levels of service and quality.

Our customer base includes Dynacast UK, Ifor Williams Trailers, ERA Security Products and many other specialist engineering and manufacturing companies.

We have an established track record of a flexible and responsive approach to our clients' needs.

We can accommodate short-notice projects of any scale and our management team has the depth of practical experience to ensure that the most appropriate and effective solution will be applied to any project requirement.

Our facilities offer the following:

- Fully automated barrel facilities
- Trained and committed staff
- Flexible shift system
- Fully automated rack facilities
- An Active Secondary Operations to suit your requirements
- Laboratory facilities
- Your telephone call will be answered directly by someone who can detail the progress of your components
